

EDUCATION ON YOUR OWN IS EASIER THAN EVER

WEBINARS

Webinars are over-the-internet courses conducted in real-time that allow students to receive the highest quality instruction while watching from their own computer, tablet or smartphone. Webinars combine the convenience of online courses with live instruction and interaction with the instructor. Our webinars have a chat box which allows students to ask questions and participate in the course, making for a more dynamic learning experience. Best of all, at the end of the Webinar, there is no test required for CE credit to be earned!

NONE of the Webinars you take from us are pre-recorded; they all take place in real-time and are taught by the instructor who authored the course. Our instructors use a webcam so you will hear and see him/her teach, address questions and provide answers - all in real-time!
